Agile Therapeutics Joins Russell Microcap® Index

PRINCETON, N.J., June 30, 2014 /PRNewswire/ -- Agile Therapeutics, Inc., (NASDAQ: AGRX), a women's health specialty pharmaceutical company focused on the development and commercialization of new prescription contraceptive products, today announced it has been added to the Russell Microcap Index. The company joined the index at the close of the market on Friday, June 27, 2014 when Russell Investments reconstituted its U.S. and global equity indexes.

Membership in the Russell Microcap Index, which remains in place for one year, means automatic inclusion in the appropriate growth and value style indexes. Russell determines membership for its equity indexes primarily by objective, market-capitalization rankings and style attributes. Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies.

Annual reconstitution of Russell Indexes captures the 4,000 largest U.S. stocks as of the end of May, ranking them by total market capitalization to create the Russell 3000® Index and Russell Microcap Index. Russell Investments comprehensive set of U.S. and global equity indexes final listing is available on www.russell.com/indexes.

About Agile

Agile Therapeutics is a women's health specialty pharmaceutical company focused on the development and commercialization of new prescription contraceptive products. Our product candidates are designed to provide women with contraceptive options that offer greater convenience and facilitate compliance. Our lead product candidate, Twirla™, also known as AG2005, is a once-weekly prescription contraceptive patch currently in Phase 3 clinical development. Twirla is based on our proprietary transdermal patch technology, called Skinfusion®, which is designed to provide advantages over currently available patches and is intended to optimize patch adherence and patient acceptability.
